THE FUTURE OF IDENTITY

We would greatly appreciate your taking 2 minutes to answer these questions. These questions refer to our tweaked definition of Self-Sovereign Identity. Please, take a moment to rate your opinion on the following questions:

1. [Existence and Representation] How willing are you to use a digital wallet for presenting identity credentials, such as work permits, university degrees, or medical certificates?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Not at all   Very much

2. [Existence and Representation] How open are you to having your wallet combine information from multiple sources?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Not at all   Combine information

3. [Consent] How much would you like to express your consent for the service provider to collect, use, and share your identity data?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Never   Every time

4. [Ownership and Control] How comfortable are you with mobile wallets sharing your personal information and create multiple identtities?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Not comfortable   Very comfortable

5. [Security and Protection] Do you believe that decentralized identities are more secure than traditional "centralized" identity systems?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Insecure   Very secure

6. [Persistence] Do you believe decentralized identities offer more security than traditional, centralized identity systems?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Not secure   Very secure

7. [Privacy and Minimal Disclosure] How important is privacy and minimal disclosure of your information to you?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Not important   Very important

8. [Access and Availability] How important is it for you to have unrestricted access to the list of identity providers and service providers?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Not important   Very important

9. [Transparency] How important is it for the policies, rules, protocols, and algorithms governing ecosystem members to be transparent?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Not important   Very important

10. [Portability] How important is it to allow users to carry and use their digital identity across multiple platforms and contexts?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Not important   Very important

11. [Interoperability] How important is it for you to have a digital identity that can interoperate between services and jurisdictions?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

No interoperability   Full interoperability

12. [Cost] Would you be willing to pay for a digital wallet and its services?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Free   Pay

13. [Standard] How would you rate the importance of using global standards in e-identity systems?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Not important   Very important

14. [Decentralization and Autonomy] Do you believe entities should have full autonomy over their identity data without relying on any third party?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

No autonomy   Full autonomy

15. [Verifiability and Authenticity] To what extent do you agree that users should be required to provide proof of the authenticity of their personal data?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Disagree   Strongly agree

16. [Verifiability and Authenticity] What method do you prefer for authenticating a wallet?

Password   ☐ Yes | ☐ No

Fingerprint   ☐ Yes | ☐ No

PIN   ☐ Yes | ☐ No

Facial recognition   ☐ Yes | ☐ No

17. [Usability and Consistency] How important is it to have an easy-to-use digital identity wallet on a mobile device?

☐ 1   ☐ 2   ☐ 3   ☐ 4   ☐ 5

Not important   Very important
